### 100 WORDS · FEATURES, INTERVIEWS

Zazie Kanwar-Torge is a psychological horror composer and multi-instrumentalist operating as Zazie Productions LLC from Asheville, North Carolina. The practice is composition-first and built to picture: hybrid orchestral dread, ambient minimalism, bowed metal, struck strings, waterphone and custom synthesiser builds. Screen work spans shorts, features, series and games, including EXPIRE, UNSEEN, PEREGRINUS, Phantom Requiem and Are You Real? — a 2026 Golden Bloody Globes official selection. In 2026 the multichannel work Slippage Beyond the Hyperlink was performed at the Ars Electronica Festival's Sonic Saturday in the Sonic Lab, Linz.

### 150 WORDS · ARTIST STATEMENTS, PANEL INTRODUCTIONS, SLEEVE NOTES

Zazie Kanwar-Torge is a psychological horror composer, multi-instrumentalist and producer working as Zazie Productions LLC from Asheville, North Carolina. Scores are written to picture rather than pulled from a library: slow-burn dread beds, dissociative harmony, sub-frequency weight and motifs built to survive the festival cut. The palette is hybrid — orchestral colour, bowed metal, struck strings, waterphone, granular synthesis, tape decay and custom synthesiser builds. Credits include EXPIRE, UNSEEN, PEREGRINUS, Phantom Requiem, ECLIPSED, THE HAUNTED, CHOLERIC and MIKE HAS A VISITOR, plus the original score for Are You Real? (2026), an official selection of the Golden Bloody Globes Film Festival in Los Angeles. Selected in 2026 from the international call for contributions, the multichannel electroacoustic work Slippage Beyond the Hyperlink was performed at the Ars Electronica Festival's Sonic Saturday, in the Sonic Lab of Anton Bruckner University, Linz. Recognition also includes the Visual Container Winter 2024 Award and selection as a BMC Radio Artist by the Black Mountain College Museum + Arts Center, Asheville FM and Make Noise.
